### High Issues:

The system used is called ROI and must be considered High-Risk. Users principal deposits cannot be withdrawn, users can get dividends and referral commission. Dividends are paid from deposits of other users. Do always invest with proper knowledge.

### Conclusion:

The SPAC Miner Smart-Contract found no vulnerabilities, no backdoors and no scam scripts.

The code was tested with compatible compilers and simulated manually reviewed for all commonly known and specific vulnerabilities.

So, SPAC Miner Smart-Contract is safe for use in the BSC Main Network.

## **Independent description of the smart contract functionality:**

The SPAC Miner smart contract provides the opportunity to invest any amount in BNB in the contract and get daily profit on investment if the contract balance has enough funds for payment

All dividends are calculated at the moment of request and available for withdrawal anytime

## **Launch Date:**

Based on the audit date {June 04, 2022} the project is not launched yet. The contract creator has access to activate the project and the launch date is dependent on the contract creator's decision

## **Contract Owners Fee/Marketing Fee:**

Deposit Fee: 5%

Withdraw Fee: 5%

## **Investment Plan:**

The daily rate will be changed based on the withdrawal of the other users.

## **Referral System:**

The contract pays a 15% referral commission over one level

The commission is 15% of the referral deposit or compound BNB

The commission will be paid as BNB that users can withdraw or compound it

Users can not use their wallet as a referral for themselves

Secure Eye is third party auditing company who works on audits based on client requests and as a professional auditing firm, we check on the contract for any vulnerabilities, backdoors, and scam scripts.

Therefore:

We are not financial advisors nor do we partner with the contract creators. Operations and website administration is fully on the client's side. We do not have influence over client operations which can lead to website changes, withdrawal function closes etc. One always has the option to do this through the contract.

Any concerns about the project themselves need to be raised directly to the project owners and not through Security Eye.

We are not responsible for your funds or guarantee you profits, we highly recommend that investors do their own research and gain crypto experience before investing.
